

PHYDURA

FAST ACTING! HERBICIDE CONCENTRATE

Where To Use PHYDURA:

- Spot treat weeds in sidewalks, patios, drive ways, around buildings and greenhouses, and around edible plants.
- Edge around trees, ornamentals, nursery crops, shrubs and walkways.
- Keep fencelines clear of weeds and grasses.
- Prepare and maintain planting beds and vegetable gardens.
- Rebuild old diseased lawns before re-planting.
- Controls weeds under benches in greenhouses.
- Keep centers clear in orchards and vineyards.

KEEP OUT OF REACH OF CHILDREN

This product has not been registered by the U.S. E.P.A. Soil Technologies Corp. manufactures this product in compliance with the U.S.A. E.P.A. Minimum Risk Pesticide Regulation, CFR Title 40, Chapter 1, Subchapter E, 152.25 (f).

PHYDURA is a non-selective herbicide made from clove oil and other biodegradable ingredients.

Active Ingredient:

Clove Oil.....1.0%

Inert Ingredients:.....99.0%

Water, Butyl Lactate, Potassium Oleate, Vinegar.

Total.....100.0%

PRECAUTIONARY STATEMENTS:

- Causes skin irritation
- Causes serious eye damage
- Harmful if swallowed
- Harmful if inhaled

Skin Contact: In case of contact, flush skin with plenty of water for at least 15 minutes while removing contaminated clothing. Wash clothing before reuse. Get medical attention if irritation develops or persists.

Inhalation: Ensure access to fresh air. Get medical attention if breathing difficulty develops or irritation develops or persists.

Eye Contact: Rinse with water for several minutes. Remove any contact lens(es) and rinse eyes thoroughly, pulling both upper and lower eye lids away from eyes. Get medical attention if irritation develops or persists.

Ingestion: Wash out mouth with water. If conscious, drink water to dilute. Do not give anything by mouth to an unconscious person. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if irritation develops or persists.

Keep unprotected persons and pets out of treated areas until spray has dried.

Soil Technologies Corp.
2103 185th Street
Fairfield, IA 52556, U.S.A.
1-641-472-3963 FAX: 1-641-472-6189
www.soiltechcorp.com

WARRANTY:

The manufacturer warrants that this product conforms to the original formulation and is fit for use as directed. Neither manufacturer nor seller shall be liable for any injury, loss or damage, direct or indirect, arising from the misuse of the product. Manufacturer's and seller's only obligation shall be to replace such quantity of the product as is proven defective before purchase.

PERSONAL PROTECTIVE EQUIPMENT:

- Respiratory protection not necessary for outdoor use. (NIOSH Approved P95 mask recommended for indoor/greenhouse use)
- Wear safety glasses/eye protection
- Wear chemical resistant gloves, long pants, long-sleeve shirt, socks and shoes

STORAGE AND DISPOSAL:

Store locked up. Do not contaminate water, food or feed by storage or disposal. Store in original container in a cool, dry area away from children and pets.

CONTAINER DISPOSAL:

Do not reuse empty container.

If empty: Offer for recycling if available or discard in a sanitary landfill.

If partly filled: Call your solid waste agency for disposal instructions.

Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE:

PHYDURA is a foliar active weed control product which contains clove oil and natural acids. It is non-selective to both broadleaf and grassy weeds and is recommended for areas such as borders, driveways, sidewalks, around mature tree bases, around nursery crops, around buildings, in fence rows, in greenhouses, on school grounds, and around flower beds.

PHYDURA is fast acting. Foliar contact results in rapid control of annual weeds and grasses, and top growth reduction of herbaceous perennial weeds and grasses. Re-treatment is required for control of established perennial weeds. Do NOT let Phydura spray contact any painted surfaces as it may discolor or strip the paint.

APPLICATION / DILUTION / DOSAGE

Young, Smaller Plants: Mix PHYDURA with water at 3:1 (3 parts water to one part PHYDURA) ratio. Fill sprayer 1/2 full with water. Add PHYDURA and then fill the sprayer with water. Some agitation during application is recommended. Spray apply mixture to the top and bottom of all weed foliage. For best results, spray in full sunlight at the warmest part of day.

Older Large Plants: Mix with water at 2:1 ratio. Spray apply to top and bottom of all foliage.

PHYDURA works best in non-shaded areas when temperatures are above 60°F (15.6°C). Spray PHYDURA directly on weeds until wet, but not to the point of run-off. Always spray PHYDURA when the plant is actively growing. Children and pets may re-enter treated areas after the spray has dried. Repeat applications as needed.

NOTE: All contacted vegetation will be affected. Avoid contact with desirable plants. Overspray or drift will injure or kill contacted vegetation. When using Phydura in a greenhouse or other enclosure, turn off all fans and/or ventilation systems so that the spray mist does not become airborne and injure any non-target plants.

Inhalation: Ensure access to fresh air. Get medical attention if breathing difficulty develops or irritation develops or persists.

Eye Contact: Rinse with water for several minutes. Remove any contact lens(es) and rinse eyes thoroughly, pulling both upper and lower eye lids away from eyes. Get medical attention if irritation develops or persists.

Ingestion: Wash out mouth with water. If conscious, drink water to dilute. Do not give anything by mouth to an unconscious person. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if irritation develops or persists.

Keep unprotected persons and pets out of treated areas until spray has dried.

PHYDURA™

FAST ACTING! HERBICIDE CONCENTRATE

Where To Use PHYDURA:

- Spot treat weeds in sidewalks, patios, drive-ways around buildings and greenhouses, and around edible plants.
- Edge around trees, ornamentals, nursery crops, shrubs and walkways.
- Keep fencelines clear of weeds and grasses.
- Prepare and maintain planting beds and vegetable gardens.
- Rebuild old diseased lawns before re-planting.
- Controls weeds under benches in greenhouses.
- Keep centers clear in orchards and vineyards.

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE: SHAKE WELL BEFORE USING

PHYDURA is a foliar active weed control product which contains clove oil and natural acids. It is non-selective to both broadleaf and grassy weeds and is recommended for areas such as borders, drive-ways, sidewalks, around mature tree bases, around nursery crops, around buildings, in fence rows, in greenhouses, on school grounds, and around flower beds.

PHYDURA is fast acting. Foliar contact results in rapid control of annual weeds and grasses, and top growth reduction of herbaceous perennial weeds and grasses. Re-treatment is required for control of established perennial weeds. Do NOT let Phydura spray contact any painted surfaces as it may discolor or strip the paint.

NOTE: All contacted vegetation will be affected. Avoid contact with desirable plants. Overspray or drift will injure or kill contacted vegetation. When using Phydura in a greenhouse or other enclosure, turn off all fans and/or ventilation systems so that the spray mist does not become airborne and injure any non-target plants.

**NET CONTENT:
15 GALLONS**

Active Ingredient:

Clove Oil.....1.0%

Inert Ingredients:.....99.0%

Water, Butyl Lactate, Potassium
Oleate, Vinegar.

Total.....100.0%

Soil Technologies Corp.

This product has not been registered by the U.S. E.P.A. Soil Technologies Corp. manufactures this product in compliance with the U.S.A. E.P.A. Minimum Risk Pesticide Regulation, CFR Title 40, Chapter 1, Subchapter E, 152.25 (f).

APPLICATION / DILUTION / DOSAGE:

Young, Smaller Plants: Mix PHYDURA with water at 3:1 (3 parts water to one part PHYDURA) ratio. Fill sprayer 1/2 full with water. Add PHYDURA and then fill the sprayer with water. Some agitation during application is recommended. Spray apply mixture to the top and bottom of all weed foliage. For best results, spray in full sunlight at the warmest part of day.

Older Large Plants: Mix with water at 2:1 ratio. Spray apply to top and bottom of all foliage.

PHYDURA works best in non-shaded areas when temperatures are above 60°F (15.6°C). Spray PHYDURA directly on weeds until wet, but not to the point of run-off. Always spray PHYDURA when the plant is actively growing. Children and pets may re-enter treated areas after the spray has dried. Repeat applications as needed.

STORAGE AND DISPOSAL:

Store locked up. Do not contaminate water, food or feed by storage or disposal. Store in original container in a cool, dry area away from children and pets.

CONTAINER DISPOSAL:

Do not reuse empty container.

If empty: Offer for recycling if available or discard in a sanitary landfill.

If partly filled: Call your solid waste agency for disposal instructions.

Never place unused product down any indoor or outdoor drain.

WARRANTY:

The manufacturer warrants that this product conforms to the original formulation and is fit for use as directed. Neither manufacturer nor seller shall be liable for any injury, loss or damage, direct or indirect, arising from the misuse of the product. Manufacturer's and seller's only obligation shall be to replace such quantity of the product as is proven defective before purchase.

PRECAUTIONARY STATEMENTS:

- Causes skin irritation
- Causes serious eye damage
- Harmful if swallowed
- Harmful if inhaled

PERSONAL PROTECTIVE EQUIPMENT:

- Wear respiratory protection
- Wear safety glasses/ face protection
- Wear protective gloves/ protective clothing
